

ASLIA NATIONAL CONFERENCE 2009

POST CONFERENCE WORKSHOP

THEATRE INTERPRETING

Theatre Interpreting: *From Script to Stage*

As we know, sign language interpreting is a balance of both art and science. This holds especially true for theatrical interpreting, where the art takes a centre stage role. This workshop will explore such questions as: What qualifications are necessary for theatrical interpreting? What techniques are used to make it successful? How do I prepare for the show? How do I translate that? What do I do with the music? Woven together, these elements create a performance that allows our audience to experience and participate in the story that unfolds on the stage. Get ready for your curtain call with this interactive workshop!
